

GW-100

Endoscopic CO₂ Regulator

Compact and easy to use

Support endoscopic examination and treatment by stable CO₂ supply

- Directly connectable to medical CO₂ pipeline in the hospital
- Easy-to-use CO₂ flow rate switching function
- Compact and lightweight

GW-100

Endoscopic CO₂ Regulator

A CO₂ insufflator enables clinicians to offer optimum procedures, minimizing patients' discomfort from bloating with air and cramping. Our latest endoscopic CO₂ regulator GW-100 has the following excellent features.

Features

1. Directly connectable to medical CO₂ pipeline in the hospital

The endoscopic CO₂ regulator GW-100 is a versatile system, which can be connected to medical CO₂ pipeline or CO₂ gas cylinder.

2. Easy-to-use CO₂ flow rate switching function

The CO₂ flow rate can be selected by one push of the button on the front panel.

3. Compact and lightweight

The system is compact and lightweight, saving space on a cart.
