

Brand name: Medicated Hand Gel-HA 500mL

**Efficacy:** Prevents chapping, protects the skin, moisturizes, and promotes healthy skin.

**Directions:** Apply a suitable amount to the skin and rub in.

**Cautions:** ● Check carefully that it does not irritate your skin. ● Do not use on areas of skin with a problem such as cuts, scratches, swelling or a rash. ● If any of the following occur to the skin during or after use, we recommend that you stop using the gel and consult a dermatologist: reddening, swelling, itching, tingling, discoloring (white spots, etc.), darkening. The condition may become worse if you continue to use the gel. ● Be careful not to get the gel into your eyes. If it does come into contact with your eyes, rinse them immediately with running water. ● Store at room temperature and out of direct sunlight. Keep out of reach of children. ● Since this gel contains naturally-derived ingredients, its color may change slightly depending on the storage environment. This does not affect its performance.

**Active ingredients:** Isopropyl methylphenol, dipotassium glycyrrhizinate

**Other ingredients:** Purified water, carboxyvinyl polymer, concentrated glycerin, 1,2-pentanediol, phenoxyethanol, xanthan gum, cetylpyridinium chloride, potassium hydroxide, ethanol, crosslinked methylpolysiloxane, aloe extract (2), apacider C, microcrystalline cellulose, sodium hyaluronate (2)

## Prevents chapped hands and maintains skin health. Medicated hand gel that both cleans and moisturizes.

Fujifilm Hydro Ag+ technology, cultivated during our development of skincare products, has been leveraged to develop Medicated Hand Gel-HA, a sanitizer that both cleans and moisturizes your hands.

We want to protect the hands that support frontline medical care.

— Fujifilm's mission.

Anti-inflammatory active ingredient

Dipotassium glycyrrhizinate

Antibacterial active ingredient

Isopropyl methylphenol

Double moisturizing ingredients

Sodium hyaluronate (2),  
aloe extract (2)

By preventing chapped hands, the gel helps you to maintain beautiful, healthy skin.

The active ingredients moisturize your hands to prevent chapping and keep them healthy.

Keeps your skin moisturized

Carefully selected moisturizing ingredients stop your hands from drying out and keep them smooth.

Soft, dry fingers that don't feel sticky

The oil-free gel contains powder, so your fingers feel soft and dry, and your work goes smoothly.

**Hydro Ag+**

Hydro Ag+ technology is a Fujifilm invention that combines alcohol with silver-based ingredients.
